MERCURY BOOKS

Professor W. H. McCrea *The Spectator*
'Mr Hoyle has written one of the most remarkable books in the story of modern science. For its significance in the progress of thought it may come to be ranked with, say, Charles Darwin's *Origin of Species* . . . His book marks a turning-point in our understanding of the physical universe.'

Sir Gerald Barry *News Chronicle*
'. . . a triumph of lucidity and simple exposition . . . I was completely absorbed by it . . . having finished it, I retain the illusion of comprehending quite a lot about the Universe.'

Sunday Times
'This synthesis and discussion of current ideas about the universe . . . is most valuable. Hoyle has done a job that was well worth doing and has done it well.'

The New Stateman
'Few will fail to gain pleasure from the ease and dramatic quality of Mr Hoyle's writing. His own intellectual excitement is conveyed nearly everywhere, and it is often difficult to put down the book . . .'

Science Progress
'. . . It is valuable, instructive and fascinating, and may be read with profit by the professional scientist as well as by the layman.'

The Birmingham Post
'With his fertile imagination and his easy style of writing he makes science not only intelligible but positively thrilling to the layman . . . a book that teems with facts and ideas that have not appeared in popular form before.'
